

UAFS Immunization Form

To ensure the health and safety of our campus, immunizations against communicable diseases is extremely important. Vaccination against Measles, Mumps, Rubella (MMR) and Tuberculosis (TB) is required of all students entering the University of Arkansas - Fort Smith (including ELS students.) This form must be completed and is the preferred document for proof of immunizations.

This form is specifically for MMR immunization. TB testing will and has to be done in the US after arrival.

REQUIRED IMMUNIZATION

- a) It is recommended that the immunizations be completed before arriving to the United States. However, if delays prevent immunization completion, the procedures can be done here in the U.S. at a local health clinic at the expense of the student.
- b) If immunization is not completed prior to admission, a hold will be placed on the students records which will require them to complete the procedures before the next semester.

The University of Arkansas Fort Smith requires that all students born after 1956 must have had 2 doses of a measles containing vaccine (MMR) prior to registration. One dose must have been after 1980. The MMR vaccine is a 3-in-1 vaccine that protects against measles, mumps, and rubella.
